

To Whom it May Concern

I have known Mr Abdullah Al-Salloum as one of my students for the last 2 years. In the 2 years he took 5 courses with me, I found him to be extremely dedicated and in all courses he was in the top students.

This young man is one of the most dedicated people I have had the pleasure of knowing, he is of sound character and has an excellent work ethic.

He has a keen mind and a love for computers that is rare to see these days in students. He could connect the mathematics from the courses to his field of computers. He was able to apply the skills he learned in the courses to his area.

I have pleasure in recommending Mr Abdullah Al-Salloum to your organization, he will be any asset wherever he works. Please do not hesitate to contact the undersigned for any clarifications.

Sincerely,

Dr. Ali R. Ansari
Associate Professor and Head
Department of Mathematics & Natural Sciences
